## Materials

| Name                                         | Company                       | Catalog Number | Comments                                                                                                                      |
|----------------------------------------------|-------------------------------|----------------|-------------------------------------------------------------------------------------------------------------------------------|
| Arietta V70 Ultrasound                       | Hitachi                       | -              | The ultrasound system.                                                                                                        |
| Cobra Liver Retractor Diamond-Flex           | CareFusion                    | 89-6216        | Retracting the liver for optimal exposure of the surgical site.                                                               |
| da Vinci Surgeon Console                     | Intuitive Surgical            | SS999          | Used to control the surgical robot.                                                                                           |
| da Vinci Vision Cart                         | Intuitive Surgical            | VS999          | The vision cart houses advanced vision and energy technologies and provides communications across da Vinci system components. |
| da Vinci Xi                                  | Intuitive Surgical            | K131861        | The surgical robot: 'patient side-cart'.                                                                                      |
| da Vinci Xi Endoscope with Camera, 8 mm, 30° | Intuitive Surgical            | 470027         | The camera of the da Vinci robot.                                                                                             |
| ENDOEYE Rigid Video Laparoscope, 10 mm, 30°  | Olympus                       | WA50042A       | To see within the intra-abdominal cavity.                                                                                     |
| ENDOWRIST Fenestrated Bipolar Forceps        | Intuitive Surgical            | 470205         | Used for dissection and coagulation.                                                                                          |
| ENDOWRIST HOT SHEARS                         | Intuitive Surgical            | 470179         | Used for cutting and coagulation.                                                                                             |
| ENDOWRIST Mega SutureCut Needle Driver       | Intuitive Surgical            | 470309         | Used as a needle driver.                                                                                                      |
| ENDOWRIST Permanent Cautery Hook             | Intuitive Surgical            | 470183         | Used for coagulation.                                                                                                         |
| ENDOWRIST PROGrasp Forceps                   | Intuitive Surgical            | 470093         | Used for dissection.                                                                                                          |
| LigaSure Dolphin Tip 37cm                    | Medtronic                     | LS1500         | Used for vessel sealing and dividing.                                                                                         |
| Robotic ultrasonography transducer           | Hitachi                       | L43K           | Used for intraoperative laparoscopic ultrasonography.                                                                         |
| TachoSil 4.8 cm x 4.8 cm                     | Baxter Healthcare Corporation | 1144923        | Used for coagulation.                                                                                                         |
