## Materials

| Name                                         | Company                       | Catalog Number | Comments                                                                        |
|----------------------------------------------|-------------------------------|----------------|---------------------------------------------------------------------------------|
| Tryptic Soy Broth (TSB)                      | Becton Dickinson              | 211825         |                                                                                 |
| Brain Heart Infusion (BHI)                   | Becton Dickinson              | 211059         |                                                                                 |
| Nutrient Broth No. 2                         | Oxoid                         | CM0067         |                                                                                 |
| Sheep blood agar                             | Eiken Chemical Co.,Ltd.       | E-MR96         | Tryptic soy agar added with 5% (v/v) sheep blood according to the manufacturer. |
| Agar powder                                  | Wako Pure Chemical Industries | 010-08725      |                                                                                 |
| Sodium citrate (Trisodium citrate dihydrate) | Wako Pure Chemical Industries | 191-01785      |                                                                                 |
| Cellulose Ester Gridded 0.45 µL HAWG filter  | Merck Milipore                | HAWG 02500     |                                                                                 |
| QIAfilter Plasmid Midi kit                   | QIAGEN                        | 12243          |                                                                                 |
