## Materials

| Name                          | Company                                     | Catalog Number | Comments                      |
|-------------------------------|---|----------------|-------------------------------|
| <b>Materials</b>              |   |                |                               |
| DMEM                          | HyClone                                     | SH30022.01     |                               |
| FBS                           | Gibco                                       | 16000          |                               |
| Pen/Strep Amphotericin B      | Lonza Biowhittaker                          | 17-745E        |                               |
| PBS                           | Lonza Biowhittaker                          | 17-516F        |                               |
| Trypsin/EDTA solution         | HyClone                                     | SH30042.01     |                               |
| 45 µm cell strainer           | VWR International Laboratory                | 195-2545       |                               |
| MediGel CPF with carprofen    | Controlled item from veterinary care in BCM |                | For pain management           |
| Buprenorphine                 | Controlled item from veterinary care in BCM |                | For pain management           |
| Estradiol pellet              | Innovative Research of America              | SE-121         |                               |
| Ketamine and xylazine         | Controlled item from veterinary care in BCM |                |                               |
| Vet ointment                  | Controlled item from veterinary care in BCM |                | Avoid eye dryness             |
| Shaver                        | Oster                                       | 78005-050      | For furred mice               |
| Isopropyl ethanol             | ACROS                                       | 67-63-0        |                               |
| Betadine surgical scrub       | Controlled item from veterinary care in BCM |                |                               |
| #10 scalpel blades            | Ted Pella, Inc                              | 549-3CS-10     | Multiple                      |
| No. 3 handle                  | Ted Pella, Inc                              | 541-31         | Need to be autoclaved         |
| Sterile surgical drape        | Sai Infusion Technology                     | PSS-SD1        |                               |
| Straight forceps              | Roboz Surgical Instrument                   | RS-5132        | Need to be autoclaved         |
| Straight fine forceps         | Fine Science Tools                          | 11253-20       | Need to be autoclaved         |
| Edged fine forceps            | Fine Science Tools                          | 11253-25       | Need to be autoclaved         |
| 4-0 Vicryl silk suture        | Johnson & Johnson Health Care               | J214H          |                               |
| 31 G insuline syringes        | BD  | 328418         | Multiple                      |
| Q-tips cotton swabs (Sterile) | VWR International Laboratory                | 89031-272      |                               |
| Skin glue                     | Henry Schein Animal Health                  | 31477          | For surgery site skin closure |
| Ear Tag Applicator            | Fine Science Tools                          | 24220-00       |                               |

|                               |                           |                       |                                 |
|-------------------------------|---------------------------|-----------------------|---------------------------------|
| Ear tags                      | Fine Science Tools        | 24220-50              |                                 |
| D-luciferin                   | Gold Biotechnology        | LUCK                  | Avoid light and put on ice      |
| 28 G insulin syringes         | BD                        | 329410                | For intra-orbital injection     |
| Paraformaldehyde              | Alfa Aesar                | 30525-89-4            | For tissue fixation             |
| EDTA                          | OmniPur                   | 4050                  | For bone tissue decalcification |
| <b>Name</b>                   | <b>Company</b>            | <b>Catalog Number</b> | <b>Comments</b>                 |
| <b>Equipment</b>              |                           |                       |                                 |
| Dissection microscope         | Leica                     | Leica S6E stereo      |                                 |
| IVIS Lumina II imaging system | Advanced Molecular Vision |                       |                                 |
| <b>Name</b>                   | <b>Company</b>            | <b>Catalog Number</b> | <b>Comments</b>                 |
| <b>Antibodies</b>             |                           |                       |                                 |
| Anti-GFP antibodies (JL-8)    | Clontech                  | 632381                |                                 |
| Anti-ALP antibodies           | Abcam                     | ab108337              |                                 |
| Anti-Osterix antibodies       | Abcam                     | ab22552               |                                 |
