## Materials

Name	Company	Catalog Number	Comments
Data Analysis Software and Packages	R	version 4.2.1 (2022-06-23 ucrt)	R Core Team R: <i>A Language and Environment for Statistical Computing</i> . at [https://www.R-project.org/]. R Foundation for Statistical Computing. Vienna, Austria. (2020).
Data Analysis Software and Packages	R Studio	version 2022.2.3.492 "Prairie Trillium"	RStudio Team <i>RStudio: Integrated Development Environment for R</i> . at [http://www.rstudio.com/]. RStudio, PBC. Boston, MA. (2020).
Data Analysis Software and Packages	ggplot2	version 3.3.6	Wickham, H. <i>ggplot2: Elegant Graphics for Data Analysis</i> . at [https://ggplot2.tidyverse.org]. Springer-Verlag New York. (2016).
Data Analysis Software and Packages	cowplot	version 1.1.1	Wilke, C.O. <i>cowplot: Streamlined Plot Theme and Plot Annotations for "ggplot2."</i> at [https://CRAN.R-project.org/package=cowplot]. (2020).
OnlineQuestionnaireTool	LimeSurvey	Community Edition Version 3.28.16+220621	Any preferred online questionnaire tool can be used. LimeSurvey or SoSciSurvey are recommended.
Notebooks or PCs	DELL	Latitude 7400	Any laptop that is able to establish a stable Remote Desktop Connection can be used.
Participant Management Software	ORSEE	version 3.1.0	It is recommended to use ORSEE (Greiner, B. [2015]. Subject pool recruitment procedures: Organizing experiments with ORSEE. <i>Journal of the Economic Science Association</i> , 1, 114–125. https://doi.org/10.1007/s40881-015-0004-4), but other software options might be available.
Program to Open RemoteDesktop Connection	Remote Desktop Connection (Program distributed with each Windows 10 installation.)		The following tools are recommended: RemoteDesktopConnection (for Windows), Remmina (for Linux), or

			Microsoft Remote Desktop (for Mac OS).
Server to run RemoteDesktop Environment	VMware vSphere environment based on vSphere ESXi	version 6.5	Ideally provided by IT department of university/institution.
VideoConference Platform	BigBlueButton	Version 2.3	It is recommend to use a platform such as BigBlueButton or other free software that does not record participant data on an external server. The platform should provide the following functions: 1) possibility to restrict access to microphone and camera for participants, 2) hide participant names from other participants, 3) possibility to send private chat message to participants.
Virtual Machine running Linux-Installation	Xubuntu	version 20.04 "Focal Fossa"	Other Linux-based systems will also be possible.
