

Code Interface and Video

The screenshot shows a software interface for video coding. At the top, there is a menu bar with options like 'Edit', 'Analysis', 'Insert', 'Transform', 'Additional', 'View', and 'General'. Below the menu is a toolbar with various icons for file operations and analysis. A 'Coding Panel' is visible on the right side, containing a table with columns for 'Key', 'Code', and 'Text'. The main workspace is divided into several sections: a 'Current Document' area at the top, a 'Condition' area in the middle, and a 'Video' area at the bottom. A 'Coding Scheme' box with an arrow points to the 'Coding Panel'. A 'current segment' box with a downward arrow points to a highlighted row in the 'Condition' table. A 'Video' box with an upward arrow points to a video player window showing a scene with people. A 'Coded Segment, number, video time(start and stop), code.' box with an upward arrow points to a row in a list on the left side of the interface.

Coding Scheme

Condition

current segment

Video

Coded Segment, number, video time(start and stop), code.
