Notes	

Risk of bias table

Bias	Authors' judgement	Support for judgement
Random sequence generation (selection bias)	Low risk	
Allocation concealment (selection bias)	Unclear risk	1
Binding of participants and personnel (performance bias)	High risk	
Binding of outcome assessment (detection bias)	Unclear risk	1
Incomplete outcome data (attrition bias)	Low risk	
Selective reporting (reporting bias)	Low risk	
Other bias	Low risk	

Guidance

MECIR Reporting

Table of 'Characteristics of included studies'

R60, Mandatory

Present a table of 'Characteristics of included studies' using a uniform format across all studies.

Details

Table of 'Characteristics of included studies': methods

R63, Mandatory

Provide the basic study design or design features (e.g. parallel group randomized trial, cluster-randomized trial, controlled before and after study).

Details

Table of 'Characteristics of included studies': participants

R64, Mandatory

Provide sufficient information about the study populations to enable a user of the review to assess the applicability of the review's findings to their own setting.
