**Special Equipment:**

1. Dissection Scope: Leica Mz12.5 with digital camera
2. Leica TCS SP5 Confocal Tandem-Scanner Microscope for conventional and resonant scanning live imaging microscopy, including blue (488nm), green (561nm), orange (594nm) and far-red (633nm) lasers as well as special 63x, 1.4 glycerine and a 63x, 1.3 water immersion lenses.
3. Harvard Instruments Confocal Imaging Chamber RC-30 and peristaltic pump model 720
4. Sutter Pipette puller P-97
5. Software: Amira 5.2, Visage Imaging
