Materials List for:
Two-dimensional Gel Electrophoresis Coupled with Mass Spectrometry Methods for an Analysis of Human Pituitary Adenoma Tissue Proteome

Xianquan Zhan¹²³⁴, Yuda Huang¹²³, Ying Long¹²³

¹Key Laboratory of Cancer Proteomics of Chinese Ministry of Health, Xiangya Hospital, Central South University
²Hunan Engineering Laboratory for Structural Biology and Drug Design, Xiangya Hospital, Central South University
³State Local Joint Engineering Laboratory for Anticancer Drugs, Xiangya Hospital, Central South University
⁴The State Key Laboratory of Medical Genetics, Central South University
